

9/10- Jim Lesar: Some time ago you gave me a batch of papers connected with the Ray civil suit you said you were pretty sure I didn't have. This is true. I have filed them with the other papers I did have, without now taking the time to read the. You also appear to have given me many of your own copies. Detecting duplication, I checked and four different items with your initials on them. I return them herewith. LW
